Ensuring Oxygen Safety

Checklist

Checklist

S = Satisfactory U = Unsatisfactory NP = Not Performed

Step	S	U	NP	Comments
Verified the health care provider's orders. Noted the oxygen delivery method, flow rate, and duration of therapy.	☐	☐	☐	
Gathered the necessary equipment and supplies.	☐	☐	☐	
Performed hand hygiene, and provided for the patient's privacy.	☐	☐	☐	
Introduced self to the patient and family.	☐	☐	☐	
Identified the patient using two identifiers. Compared identifiers with the information in the patient's medical record.	☐	☐	☐	
Followed safety guidelines: 1. Set the flow of oxygen to the prescribed rate. Reminded the patient that oxygen is a medication, and is not to be adjusted without a health care provider's order. 2. Placed an "oxygen in use" sign in the patient's room and on the door. 3. Used extreme care and caution with oxygen cylinders. 4. Ensured that all electrical equipment in the room had been checked for safety. Identified and removed items that could create a spark.	☐	☐	☐	
Checked the oxygen level in the portable cylinder before ambulating or transporting a patient. Obtained a backup cylinder if necessary.	☐	☐	☐	
Helped the patient into a comfortable position, and placed toiletries and personal items within reach.	☐	☐	☐	
Placed the call light within easy reach, and made sure the patient knew how to use it to summon assistance.	☐	☐	☐	
Raised the appropriate number of side rails and lowered the bed to the lowest position.	☐	☐	☐	
Documented and reported the patient's response and expected or unexpected outcomes.	☐	☐	☐	

Taught the patient how to use oxygen safely at home. Made sure the patient understood how to use the equipment, read the gauge, and store the cylinders. Helped the patient identify and locate possible sources of ignition. Asked the patient to explain the importance of not smoking and not allowing others to smoke in the home.
