Performing Hand Hygiene

Checklist

Checklist

S = Satisfactory U = Unsatisfactory NP = Not Performed

Step	S	U	NP	Comments
Pushed long uniform sleeves above wrists, removed jewelry during hand hygiene per the organization's practice.	☐	☐	☐	
Used antiseptic hand rub product:	☐	☐	☐	
1. Dispensed the recommended amount of product per the manufacturer's instructions for use into palm of one hand. 2. Rubbed hands together, covered palms and back of hands, interlocked fingers, cleaned thumbs and wrists. 3. Rubbed hands together until alcohol was dry. 4. Allowed hands to dry completely before applying gloves.				
Washed hands with soap and water:	☐	☐	☐	
1. Stood in front of sink, kept hands and uniform away from surface, repeated sequence if hands touched sink. 2. Turned faucet on, pushed knee or foot pedals, if available, to regulate water. 3. Avoided splashing water against uniform. 4. Regulated flow so temperature was warm. 5. Wet hands and wrists under water, kept hands and forearms lower than elbows. 6. Applied the recommended amount of plain or antimicrobial soap to hands, according to the manufacturer's instructions for use, lathered thoroughly. 7. Washed hands for 15 seconds or for the length of time stated in the manufacturer's instructions for use for the product used. Ensured that all surfaces were scrubbed, including the backs of the hands, under the nails, and between the fingers. 8. Cleaned areas underlying fingernails with nails of other hand, used additional soap or disposable nail cleaner. 9. Rinsed hands and wrists thoroughly, kept hands down and elbows up. 10. Dried hands thoroughly and properly with towel, cloth, or warm-air dryer. 11. Discarded paper towel appropriately if used. 12. Turned off faucet with a dry paper towel, turned water off with pedal if applicable. 13. Applied an organization-approved lotion or barrier cream to hands, did not use lotion if appropriate.
